ALL LOCATIONS ACCEPT LINK

Link Up Illinois, a program of Experimental Station, was created in 2011 to combat urban and rural food deserts, support local small and mid-size farms, offer lasting health benefits to vulnerable Illinoisans, and advocate for policy change on the state and federal level.

Link Up Illinois provides farmers markets, other direct-to-consumer venues, food Co-ops, and corner stores across the state with funding to implement Link Match programs.

Universal Link Match

For our Link customers' convenience, Link Match is transferable across all participating farmers markets! You may earn Link Match at one participating farmers market and spend it at any other participating farmers market in the state. Universal Link Match is only accepted at Farmers Markets & Farm Stands and not at retail locations.

2021 Guide To Illinois Farmers Markets, Food Co-ops, and Corner Stores Accepting Link Match
